SUMMARY

Motivated Computer Science graduate from KFUPM with a strong foundation in IT systems, infrastructure, and technical problem-solving. Experienced in building automation tools, managing SQL databases, and providing technical insights to senior stakeholders. A proactive professional dedicated to supporting organizational IT goals and maintaining seamless technical operations in a dynamic environment.

EDUCATION

Bachelor of Science in Computer Science | Jan 2020 – Mar 2025 *King Fahd University of Petroleum & Minerals (KFUPM)*

WORK EXPERIENCE

Business Analyst / IT Support Intern | Binzagr Company | Jun 2024 – Aug 2024

- **System Integration:** Built and deployed automation tools to load and integrate external data into company databases, improving operational efficiency.
- **Database Management:** Cleaned, prepared, and managed large-scale company data for technical analysis and visualization.
- **Technical Reporting:** Translated complex data findings into actionable insights for non-technical senior stakeholders.
- **Technical Troubleshooting:** Assisted in the maintenance and optimization of data-driven tools to support business decision-making.

TECHNICAL PROJECTS

ETL Pipeline & Database Architecture

Designed and built full ETL pipelines, starting with the construction of SQL databases for secure data storage.

- Extracted data from diverse sources via APIs and performed transformations using Python to ensure system compatibility.

Property Cost Prediction & Automation

- Leveraged Selenium to mine data from web vendors and utilized Python (Pandas/Matplotlib) for cleaning and analysis.
- Developed a machine learning model to predict regional property costs, demonstrating strong logic and algorithmic skills.

SKILLS

- **IT & Infrastructure:** SQL, Database Management, AWS, GitHub, Microsoft Teams, Technical Support.
- **Software & Tools:** Python, Java, Advanced Excel, Power BI, Tableau, Selenium, Jupyter Notebook.
- **Technical Core:** ETL Processes, Data Cleaning, System Automation, Model Testing, Technical Documentation.
- **Soft Skills:** Proactive Problem Solving, Analytical Thinking, Team Coordination, Work Under Pressure, Adaptability.

LANGUAGES

- English (Professional)
- Arabic (Native)
